At the White House to Talk Over the Vice Presidency Situation.

HAS NOT YET CRYSTALLIZED,

New York the Choice From a Strategic Standpoint-Cornelius N. Bliss Would be Acceptable.

WASHINGTON, June 12 .- The President had quite a number of prominent callers to-day before the cabinet meet-They included Senator Hanna, chairman of the Republican national committee; Senator Allison, of Iowa; Senator Fairbanks, of Indiana; Senator prose, of Pennsylvania, and Thomas K. Lowery, of Minnesota, one of the erates at large from his state to the Philadelphia convention. Benator Han-na goes to Philadelphia te-morrow to attend the first meeting of the sub-committee of the Republican national executive committee. He probably will see the President again before his de-

Goes to Deliver an Address.

Senator Fairbanks goes to Ohio tonight to deliver an address to the grad-uating class of the Ohio Wesleyan University and will not reach Philodelphia until Saturday. Senator Allison also expects to arrive on that day. Mr. Lowery, who is pushing Senator Washburn, of his state, for the vice presidency, continued his journey to Philadelphia to-day. Although the gossip around the white house in connection with the President's callers centered particularly about the vice presidential nomination, the senators who conferred with Mr. McKinley were reticent, con-curring only in the statement that the situation had not yet crystallized.

Hard to Tell Who it Will Be.

"No one can say with positiveness who the nominee for vice president will be," said one of the senators after he had left the white house. "Things are shaping up some but the problem is a difficult one to solve. I think the Republican leaders as a rule are of the opinion that the nomination should go east, so as to secure a geographically balanced ticket. Secretary Long would make an admirable candidate, but his state is safely Republican and his nomnation would avail little from a strate gical standpoint.

Want the Man From New York.

Most Republicans, I think, would prefer to see the nominee chosen from New York, but there are difficulties in the Governor Roosevelt's attitude prevents a natural selection. If Cornelius N. Bliss would accept the nomination, I think the problem would be He is being urged to permit his name to go before the convention, but he has thus far declined, and I am afraid he can not be induced to alter his position. He retired to private life from choice for domestic reasons and nothing, I fear, will induce him to re-enter politics."

WHEELING WHOLESALE MARKETS. Weekly Change of Quotations in all Lines of Local Trade. Office of the Intelligencer,

Wheeling, June 12.
The advances in wheat and flour have been the most interesting features of wholesale markets during the past lowing the bull movement on wheat, came last Friday, and was followed by another advance on Saturday. On Monday there was a slight decline, but

Tuesday brought another advance, and the present quotations are a net ad-vance of forty cents a barrel over last week's figures. Sugars, too, have advanced materially since last week. The local advance in wheat is only two cents, and does not nearly measure up cents, and does not nearly measure up with the speculative advances in Chicugo and other big wheat centers, but this is not surprising as the local figures are for actual sales only.

There is an increasing demand for all kinds of fruits, the warm weather appearing to increase consumption. There is also quite a demand for vegetables; receipts have been heavy on potatoes and terminations.

a also quite a demand for vegetables; eccepts have been heavy on potatoes and tomatoes, the first car having come strawberries have been oming in pretty freely at slight decline, few Rocky Ford nutmegs are coming, inearal receipts have been heavy, the market cleaning up well.

Provisions.

FINANCE AND TRADE.

The Features of the Money and Stock Markets.

616c

NEW YORK, June 12 .- Money on call ensy at 1%@2 per cent; last loan 2 per cent. Prime mercantile paper 31476414 per cent. Sterling exchange steady, with actual business in bankers' bills at \$4 87%@4 87% for demand and at \$4 84% @4 85 for 60 days; posted rates \$4 8512@ 4 88½; commercial bills \$4 84@4 84%. Silver certificates 60@61c. Bar silver 60c. Mexican dollars 47½c. Government bonds easy. State bonds inactive. Rall-

road bonds weak. The small contingent of professional room traders, whose operations made up to-day's stock market found diffi-culty in causing any movement of prices. The prevailing duliness was a characteristic of all the securities markets of the world. Speculation waits on the developments in China and in the money markets in Berlin and Paris. The firmer tone in London and Paris on early reports of a British success in the Transvaal caused prices to open higher here, but they quickly declined on realizing and on short rates by the traders, induced by the renewed strength strength in wheat on the continued drouth in the northwest. The outlook for the crops was a dominating influence in the market all day, not only in the movement of prices shown but in the intense duliness and hesitation in the trading. A slight fillip was given in the last hour by the weather bureau's predictions of rain in the northwest. The weather bureau's weekly report of crop conditions, while it reflected the unfavorable condition of spring wheat as was expected, brought realizing in

wheat and contrarywise, short covering in stocks. The rally in the grangers and som: Pacifics reached a point or over, but the rise was not well maintained and the closing was semi-stagnant and un-steady at concessions. The prospect of gold exports on Thursday was a depressing influence in the market. actual arrangements for shipment have been completed but exchange bankers generally admit that a profit is possible on the operation. Sterling exchange held firm to-day in spite of a decline in London discount rates. Sterling exchange at Paris declined and the Bank of England sold gold for Paris. in fact, seems to be the real point of at-traction for gold. The easing of the London discount rate is attributed to expectation of further receipts of Russian gold and the stiffness of the money market in Paris and Berlin, where Rus-sia usually borrows to meet her interest obligations to London, is the real cause of Russian gold going to London. Thus it happens that Russia instead of borrowing in Paris Indirectly furnishes the means which enables London supply gold to Paris. The French demand for gold is attributed to the active need for money in eleculation, incident to the exposition. But the policy of the Bank of France in reducing its note issue and in contracting its loans is in conflict with this view and indicates rather a desire to fortify the posttion of that institution. London ad-vices report uneasiness in the stock market there lest a crisis shall develop in France after the exposition is ended This helps to account for the persistent duliness of the European securities markets. The policy of contraction which is being followed by the government banks in England, France and

Germany is in strong contrast to that

followed in this country. Two weeks ago leans of the New York banks rose

to a figure above any pravious record

Breadstuffs and Provisions.
CHICAGO—Wheat was # broad and active market to-day, teaching the highest point of the recent advance under the influence of the northwest drought, but losing most of it later on rain in the afflicted terr@ry, July closed &c over yesterday. Sorn closed &6 2c higher and oats improved &c. Provisions were weak, closing 15@27%co lower.

Provisions were weak, closing 15%27%c lower.

Wheat opened easy on pressure from longs, July %c lower to unchanged at 72%67%c. The northwest was still without rain and very unfavorable crop reports from that section of the spring wheat country continued to pour in. July in the first fifteen minutes advanced to 74%c, and a little later, after a slight check, pushed on to 74%c. A huge business was transacted; the pit was crowded and speculators excited and nervous. At the high tide of its strength an opposing factor presented itself in the weather bureau prediction of rain in the Dakotas and Minnesota. strength an opposing factor presented taself in the weather bureau prediction of rain in the Dakotas and Minnesota. This influence was reinforced latter by advices from the northwest that rain was already falling. Some towns said the rain was heavy and persistent. These considerations gradually forced July back to 73573%c. Near the close the market railied to 735%c on covering by those who went short on the bulge and the close was firm, July ½c higher at 73½c. Atlantic port elearances in wheat and flour were equal to 450,000 bushels. Primary receipts asgregated 471,006 bushels, compared with \$72,000 bushels. Primary receipts asgregated 471,006 bushels, compared with \$72,000 bushels. Convaired foot a year ago. Local receipts were 148 cars, four of contract grade. New York reported thirty-six loads taken for export.

Corn was quiet but firm. The market advanced early in sympathy with the wheat bulge and yielded very stubbornly when the big market reacted. Country offerings were recently and the cash they have been recently and the cash

ly when the hig market reacted. Country offerings were reported not as large is they have been recently and the cash temand was improved. The seaboard reported a good export business. July soid between 38%c and 384@23%c, closing firm at 34@4%c yesterdny at 35%g. Receipts here were 816 cars. In oats there was a quiet but steady market. The only incident of the tradewas the good outside demand for September delivery. July soid between 1214@22%c and 22c, and closed %c improved at 28%c. Receipts here were 69 cars.

Metals.

Metals.

NEW YORK—Trading was very slow in the mraket for metals and price changes were conspicuous by their absence. Tin was nominally quoted at \$23.75, with the tone dull. Lead and spelter also ruled dull and unchanged at \$3.523.90, and \$4.325.94 \$4.32.67 \$4.325.90 \$4.325.9

\$15.00. The brokers' price for lead was RAILWAY TIME CARD.

Dry Goods.

NEW YORK—Home demand contin-ues in all departments of the dry goods market and absolutely no new feature in evidence in either staple or fancy lines. Print cloths inactive. No change es. Print cloths inactive. No chang Fall River. Offers of regulars ou e at three cents fall to elicit orders.

Petroleum.

OIL CITY—Credit balances \$1 25: certificates, no bids: shipments, 105,425 barrels: average, 94,597 barrels: runs, 169,110 barrels: average, 86,186 barrels. NEW YORK-Standard oil stock TOLEDO-Oil unchanged.

Wool.

NEW YORK-Wool quiet.
